### **The Faithful Father**

A good father is a person who always give time to the home people by engaging the to all activities which may be done.

Love & respect their mother & speak positively always about her .You cannot hate your wife and love your children, Becoming an expert about your children's lives –knowing what a certain look on their face means, what causes them stress

Let your children know you -through storytelling is a great way to strengthen your bond. What were you like at your child's age, what mistakes did you make? No matter what a child need must get all the needful from the parent mostly the father. (**Waiswa James Omughandiisi**)
